**NEW!**  
**Cargo 4!**

**Ask us about our newest cargo box!!**

Using our Cargo Box, you are able to increase your sterilization efficiency, save your practice valuable time and money, and upgrade the quality of your entire sterilization system!

### Ideal Color Coding

Steri-Source Cargo Boxes were specially created by orthodontists like you, who know the value in efficiency. Each Cargo Box was designed to be color coded by individual pliers, or custom set-ups.

### Accommodating

Pivoting lid accommodates storage, cleaning and delivery of the instruments management process.

### Light Weight

Constructed with stainless steel that is not only light weight and sleek, but also resists rust and discoloration. Your assistants will love the look and feel of this sterilization box!

### Sturdy

Plier stabilization bar keeps pliers from moving while being transported.

### Added Bonus!

The cargo box can handle more than just your pliers and hemostats! We've integrated a removable instrument tray to store your hand instruments, or an extra odd shaped plier.

### Gentle

Open with ease! Thanks to the silicone tubing Your assistants will be able to open this Cargo Box with a slight press of the buttons. No more wasted time trying to fidget with hard to open cassettes. In fact! Our "pop up" lid can even be opened with one hand!

### Just for you!

Two side mounted scabbards allow hemostats to be kept on the right and left side of the Cargo Box. Well-situated for the left handed assistant or doctor.

## Cargo Box

*Orthodontic Sterilization Box with removable instrument tray and pivoting lid*

### Description:

Orthodontic Cargo Box is designed for sterilization of complete patient set-ups including pliers and hand instruments. Stainless steel construction, pivoting lid, removable instrument tray/extra storage area and dual locking easy to open latches are just a few of it's highlights! Available in 6,8 or 10 plier capacity.

### Intended Use:

Cargo boxes are intended for sterilization, chairside and storage of hand instruments and pliers. The cargo box greatly improves sterilization of plier joints by storing them in a slightly open position. Pliers are always set-up, in order and ready to go at chairside. No More searching for instruments!

### Product Specifications:

Size: Cargo 6 2 13/16 x 5 5/16 x 6 7/8  
Cargo 8 2 13/16 x 6 7/8 x 4 3/8  
Cargo 10 2 13/16 x 7 1/2 x 5 3/8
