Eliminate Cross-Contamination

Opening drawers and accessing items in your side unit is now done with the satisfaction of knowing no cross contamination occurred.

Multi-Functional

Eliminate *opening* drawers with non-sterile gloves. Put an end to contaminating the entire area with one reach *into* a drawer. These tweezers are used for both opening and picking up items in the drawer.

Cash@Hand!

Save Money! Never have to purchase drawer-pull covers and/or handle wrap again.

Part of the Elite Steri-Source System

Steri-Source Slimline tweezer series is just one of our many solutions designed and by the recognized leader in sterilization developments and design.

Place a Drawer Tweezer in
each of your set-ups!

NOW IN STOCK AND ON SALE!
